4. What would you suggest to improve the workshop?

- (6) Provide more examples or samples. Selected comments include:
 - Walk through case scenario to make it more concrete.
 - Some sample transition plans or list of resources
 - more tools to directly use with clients
 - More information on different types of transitions.
- (3) More interaction. Selected comments include:
 - It would be helpful to hear from others in the room about their successful transition cases - how it was done, when it was done
 - Discussion of challenges with transition - it makes sense on paper but actually getting family through steps is challenging.
- (2) The CANS section wasn't applicable/helpful.
- CANS - should at least mention guide book with rating scale so newbies know how to use communicative scale, not in detail but should mention it better.
- Simulate a transition plan during the training to give some hands on experience on how to start transition planning from day one.
- Facilitator talked too fast. Lots of good information, just too fast.
- Nothing
- Youth panel to fit topic.

- Good/informative PowerPoint.
- Slides 3 to page - save paper and place for notes. Great mix of topics and info today.
