**6. Please add any additional comments/suggestions you might have:**

- (6) Onsite mentoring/consultation for sites selected comments included:
  - There needs to be more up-front training for CST's, I feel like we are on our own to figure things out. I heard there used to be a mentor assigned to a county. Why don't you bring that back? Small counties really struggle. Need to provide skills training on being an effective facilitator!! You would get a better bang for your buck.
  - More training right when new staff starts. State reps should come to sites and go over all of these things when a new staff starts so it is done correctly the first time in the beginning.
  - In reflection on starting our Coordinating Committee 2 years ago it would have been helpful (immeasurably) to have had a mentor or support. Never having facilitated a committee before I feel I made many mistakes that could have been avoided.
- I think it would have been helpful initially with getting CST going within the county as it has been difficult getting it up and going effectively and maintaining it.
- Would like to see trainings on, interviewing, mentoring for coordinators, PPS information explanation/education, team development, team development training at how to.... Hands-on .....
- Pre-survey CST Coord for typical issues with committee mtgs. (i.e. how can we afford, ABC) At next workshop, do role plays to get creativity flowing for new responses that will/could strike up rejuvenation within the committee. How to respond with positivity to create rejuvenation!
- Valuable training and useful associated materials!
- More time for issues and concerns and collaboration.
- Training for new CST coordinators
