

What Jefferson County Families and Schools are saying about the Wraparound Project...

August 2007

“The Wraparound team has been a huge support and I’ve never felt like I was not in charge. I was given suggestions and ideas and it was up to me on how I used the resources offered to me. This is an amazing program and I look forward to continuing with the success.”

- A Lake Mills Parent

“With the help of the Wraparound program, I was able to focus on short and long term goals. The team was made up of teachers, principals, family members, doctors, therapists and me. The team was able to point me towards resources that I never knew about. I was able to work with community programs for rent and food...even school supplies!”

- A Lake Mills Parent

“Wraparound has been a great help to my family and I, The staff have been very personable and helpful in finding resources we need to survive as a family.”

- A Jefferson Parent

“I look forward to the support groups each month. It is good to know that I am not alone and I have hope for my sons and my family.”

- A Fort Atkinson Family

“The Wraparound Project allows families to sit down with multiple agencies to develop a plan of care to address their specific needs. It is great to work as a team with parents, students, county agencies, physicians, school officials and other community members all focused on helping the family be successful.”
