3. What aspect or topic did you find the most helpful?

- Brainstorming ideas on keeping coordinating committee active
- Skill building and open discussion
- Ways to make coordinating committee more intriguing for others
- Learning about how everyone's coordinating committees work
- Background information regarding strategies of coordinating committee; open discussion.
- Conversation between the local counties about concrete conversation and ideas pertinent to coordinating committee.
- Everything about coordinating committees. Hearing from other counties, brainstorming.
- What committees should have (guidance)
- Meeting with other CST coordinators gives me ideas for the CST in my county and ways to improve our coordinating committee.
- Information about PPS from Tim Connor
- Learning collaborative
- Roundtable discussions

4. What would you suggest to improve the meeting?

- Spent too much time on topics - meeting went slow for me.
- Q & A section at end to ask any CST-related questions. Continue this - it will be helpful - standing agenda item.
- Small group activity
- Great discussion - nothing that I know of.
- The facilitating wasn't organized. Too much information given at once - slow down - interrupting. Have Dan run meetings again - presentation was well presented.
- Would have been helpful to have Tim present.
- Don't duplicate items from the main state meeting in Stevens Point (too close together).
- Consider starting earlier.
- Have time for each county to have one-on-one with someone from White Pines because all counties run differently and have different set-ups. A collaborative discussion is not as helpful because what works in one county may not work in another.
