

WISCONSIN DEPARTMENT
of HEALTH SERVICES

Coordinating Committees: So we're expected to bring a bunch of people together to talk about what exactly?

Danielle Graham-Heine, CCS Coordinator
Jason Cram, Adolescent Treatment Coordinator
September 12, 2018

To protect and promote the health and safety of the people of Wisconsin.

Learning Objectives

Participants will:

- Gain a better understanding of the requirements for Comprehensive Community Services (CCS) and Coordinated Services Team (CST) Initiatives coordinating committees.
- Learn about options for coordinating committee models.

Wisconsin Department of Health Services

2

Learning Objectives

Participants will:

- Learn about best practices for coordinating committees.
- Participate in a discussion about successes and challenges regarding coordinating committees.

County Government
Juvenile Justice

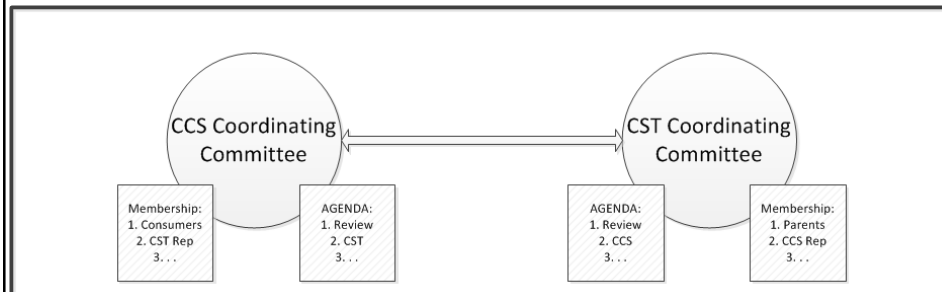

Model: Separate but Equivalent

Model: Separate but Equivalent

- Description
 - Separate with minimal cross conversation
 - Meets requirements
- Strengths
 - Compliance and focus
 - Logistics
- Challenges
 - Collaboration and understanding
 - Resource allocation
 - Youth issues

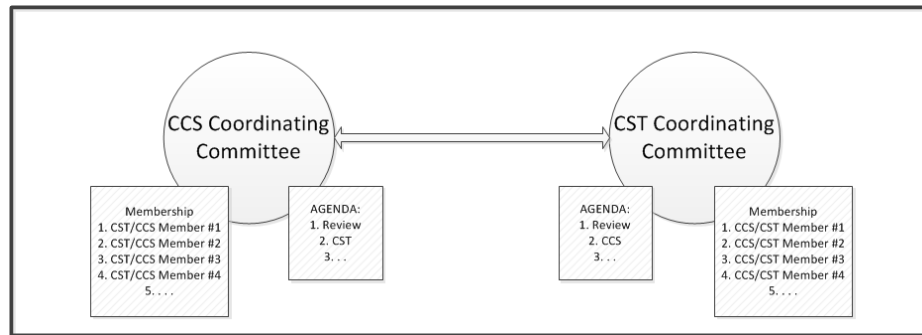

Model: Cross Representation

Model: Cross Representation

- Description
 - Separate but cross representation
 - CCS and CST topics and updates shared
- Strengths
 - Communication and coordination
 - Understanding
- Challenges
 - Knowledge but no singular resource
 - Natural supports and community involvement

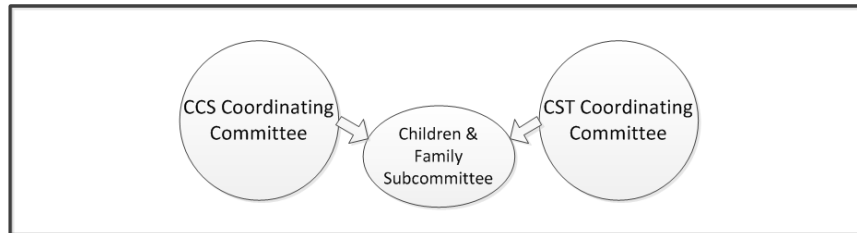

Model: Immersed Representation

Model: Immersed Representation

- Description
 - Separate but shares many committee members
 - Shared agenda topics
- Strengths
 - Efficiencies and logistics
 - Integrated communication and shared resources
- Challenges
 - Administrative focus may be at exclusion of others
 - Time intensive

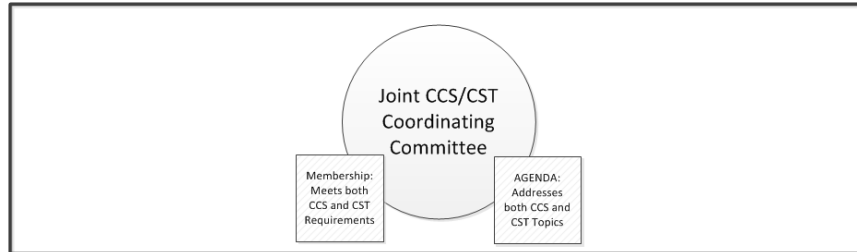

Model: Subcommittee Structure

Model: Subcommittee Structure

- Description
 - Integrated approach to address need
 - Separate committee structure
- Strengths
 - Crosspollination and membership flexibility
 - Community and natural supports
- Challenges
 - Communication between committees
 - Inherent weakness and stigma of subcommittee
 - Time intensive

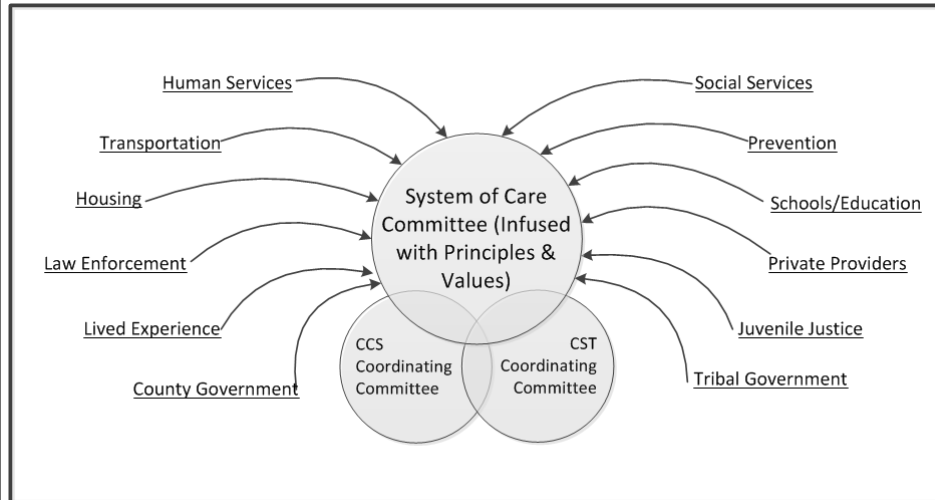

Model: Complete Blending

Model: Complete Blending

- Description
 - Blended representation of CCS and CST
 - Addresses areas of need for CCS and CST
- Strengths
 - Communication and understanding
 - Collaboration and shared resources across lifespan
- Challenges
 - CCS and CST requirements
 - Time intensive
 - Recruiting

Model: Community System of Care

Model: Community System of Care

- Description
 - Comprehensive system of care
 - Comprehensive needs within community
- Strengths
 - Population across the lifespan
 - Immersive cross-pollination
- Challenges
 - Leadership and focus
 - Relinquishing and sharing authority

Best Practices: Policy and Philosophy

- Embrace principles of wraparound at all levels
- Ensure all stakeholders are represented
- Meet statutory and rule requirements
- Promote a system of care as a platform for change
- Embrace crosspollination of ideas
- Use implementation strategies and logic model

Best Practices: Infrastructure

- Begin where the system is at and adapt the model
- Create a shared vision with shared ownership
- Communicate within and across committees
- Seek efficiencies
- Seek cross representation on committees
- Understand needs of all populations

Best Practices: Services and Supports

- Promote evidence-based practices
- Promote and develop natural supports
- Be inclusive of the lifespan (children to adults)
- Remain connected to needs of all populations
- Remain adaptable and flexible

Interactive Discussion Questions

- What challenges have you encountered with coordinating committees?
- What successes have you had with coordinating committees?
- What model would you like to see in your community? How can you get there?

Interactive Discussion Questions

- What is on your committee agendas?
- Do you have a shared vision?
- What does your system of care look like?
